

Cheese & Wine Pairing

On Wednesday 17th we met at Anna's home for a talk and demonstration of how to pair the right cheeses with the correct wines.

It was a lovely warm and sunny evening and we all sat in the garden and some of us became very merry having tasted 12 different types of cheeses and wines.

Who would have thought that the best cheese to have with Champagne is Brie! We all enjoyed some of that including a non-alcoholic version of wines for us drivers.

It was a fun and informative evening and those who attended had a good time. We were even home on time for the England football match.

A big thank you to Anna for such an enjoyable evening.
